

Dear Parents and Community,

Welcome to our school website. It is my pleasure as principal of Windermere Elementary to showcase the wonderful learning on our campus. I see firsthand everyday all the hard work and collaboration that has been established with our PTA, SAC, parents, volunteers, teachers and staff to make our school the successful educational institution it is today. We are fortunate to also have the support of The Mustang Education Fund. The Mustang Education Fund through collaborative partnerships with parents, faculty, and our community provide the additional funding required to create an exceptional educational environment through technology enhancements.

Our district's mission is to be able to lead our students to success with support and involvement of families and the community. Here at Windermere Elementary we work as a team to support this mission by "Achieving Excellence Together" and creating positive relationships between school and home. We are proud to be recipients of the Five Star School Award from the Florida Department of Education. I encourage you to take some time to browse our website and view our Five Star portfolio as we celebrate our accomplishments this year.

Sincerely,  
Diana Greer, Ed. S
